DETAILED ACTION

Claim Rejections – 35 USC 112

1. The Applicant has corrected the antecedent problem involved with claims 16 and 17, and thus the 35 USC 112 rejection has been withdrawn.

Allowable Subject Matter

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The Applicant amended claims 1, 8, and 14-16, according to the "Amendment" received July 13, 2004 and presented arguments in favor of allowance of the newly amended claims. The Applicant demonstrated to the Examiner's satisfaction that, with respect to the 35 U.S.C. 102(e) and the 35 U.S.C. 103(a) rejections of the independent claims 1, 8, 14, and 15, the primary reference of S. Goto (6,452,193 B1) is no longer applicable to the Applicant's invention. With respect to the above independent claims, S. Goto, and any other prior art, fails to disclose or make obvious the feature of the present invention, in which an electron beam exposure apparatus or method includes, in addition to the accompanying features of the claims, the calculating of data to control the aligners and the electromagnetic lenses based on the position of the electron beam, and in particular does not disclose the data control circuit that controls an aligner control circuit and a lens control circuit. Accordingly, the 35 U.S.C. 102(e) and 103(a) rejections are be withdrawn, and therefore, the independent claims 1, 8, 14, and 15 are allowed.

The dependent claims 2-7, 9-13, and 16-20, are allowed by virtue of their dependence upon claims 1, 8, and 15, respectively.
